## GOVERNOR COX PLEASSES LABOR

Declares He Understands  
Needs of the Working  
People.

By the Associated Press  
WASHINGTON, Aug. 30.—Organized labor's non-partisan political campaign committee, comparing the public records of the republican and democratic presidential nominees, declared in a report made public today that Governor Cox had "shown himself possessed of a fuller understanding of the needs of the working people."

The report, signed by Samuel Gompers, president; Matthew Woll, vice-president; and Frank Morrison, secretary of the American Federation of Labor, is the first ever made on presidential candidates by a federation committee.

Taking up the senatorial record of Senator Harding, the committee declared that on 18 measures dealing with labor his score stood: favorable 7; unfavorable 10; paired unfavorably 1.

The republican nominee's vote on labor issues during his term in the state senate of Ohio, as reported by the committee, stood: favorable 6; unfavorable 0. In this connection the report said:

"Senator Harding's record in Washington affords a better opportunity for analysis of his legislative views than does his record in the Ohio senate by reason of the fact that his term of service extended for a longer period of time, during which he was called upon to consider a wider variety of measures."

Reviewing Governor Cox's record the report said that while governor of Ohio he had "acted upon 59 measures of interest to labor without acting on a single one adversely to labor." As a member of the 62nd congress, the "governor" was recorded as voting "favorable" to labor on two measures, the only ones listed.

After reviewing and quoting at length from the utterances of the candidates on labor issues in their speeches of acceptance the committee summarized its findings in this language:

"There can be but one conclusion based upon a careful and impartial survey of the actions and declarations of the candidates. Governor Cox has shown himself possessed of a fuller understanding of the needs of the working people, a readier response to their needs and to their proposals, and a broader statesmanship in his public discussions of the problems of the industrial world."

In addition to his superior understanding, Governor Cox is the candidate on a platform which labor has declared "marks a measure of progress not found in the republican platform," and the planks of which "more nearly approximate the desired declaration of human rights than do the planks found in the republican platform."

"Not only in the specific utterances relating directly to questions held paramount by labor is the comparison favorable to Governor Cox. His progressive and constructive viewpoint holds throughout his

## FINNISH CITIZENS PLAN FOR BIG TRIP

By the Associated Press  
HANCOCK, Mich., Aug. 30.—Prominent Finnish citizens of the northwest have approved a tour of Finland next summer by American singers, merchants and professional men of Finnish extraction. It is hoped to make the party large enough to charter a steamship for the trip. The singers will give concerts in the principal cities of Finland, while the other members of the party will endeavor to establish closer relations with the business interests of the country. The tour also will give many an opportunity to visit relatives in the land of their birth or that of their forebears.

## FORT DE CHARTRES TO BE RESORTED

By News' Special Service  
SPRINGFIELD, Ill., Aug. 30.—Restoration of Fort de Chartres, an old French stronghold, just completed with a legislative appropriation of \$12,250, has opened to Illinois this month as a state park, another of its earliest seats of government.

From this vantage point, near the confluence of the Kaskaskia and Mississippi rivers, the French for forty-five years, and after them the British for seven years, ruled the entire upper Mississippi valley. The fort was built in 1718 and rebuilt in 1756 at a cost of \$1,000,000. Its huge masonry covered four acres.

It was surrendered to the British in 1763. In the third year of the British rule, the first common law court in the Mississippi valley Chartres continued in undisputed sway then until a freshet burst upon it in 1772 and washed away one side of the fortifications.

The restored fortress is four miles east of the present village of Prairie de Rocher.

## GENERAL SWEENEY IS GOOD SOLDIER

He Showed Bravery In All Engagements and Was Commissioned.

By the Associated Press  
NEW YORK, Aug. 30.—War dispatches making more than casual mention of Brig. Gen. Charles Sweeny have lent to the Polish struggle more than an impersonal interest to American army officers at Governors Island, who are well acquainted with Sweeny—an American soldier of fortune with both principle and purse.

Men of no fortune at all who fight in any old or young army for the sake of excitement and paltry pay are common enough. But Sweeny, U. S. A. is a notable exception. He is a multi-millionaire son, his father having amassed great wealth in the famous Coeur D'Alene mines of Washington and Idaho, and the soldier is more than a millionaire in his own right.

He put in three years at West Point and then sought the life of an active soldier. In Mexico, South and Central America and Europe he has struck blows is desperate causes.

Sweeny, a former lieutenant-colonel in the United States army, attached to the general staff, was in Paris during the spring of 1919, recovering from wounds suffered in the Argonne offensive with the American Expeditionary Forces when he learned that Poland was in need of officers for her new armies. He consulted with the then Premier Paderewski and offered to recruit volunteers when he returned to America to be mustered out of the service. In three weeks he had selected 200 former American army officers, all of whom had seen service in many battles in France. Colonel Sweeny sailed for Poland in September of last year with the first of his officer contingent.

He was not long in getting into the Pole-Red fight and in recognition of his splendid services Poland commissioned him a Brigadier General. Recent dispatches say that he had marked out by his gallantry and leadership.

This Irish-American-Polish general for whom a soft life has held no appeal, began his career on the battlefield on leaving West Point after he retired mining for a while.

He went to Mexico and got his "baptism of fire" and a wound in the Madero affair. Upon recovery, Sweeny packed up for South America where he took a hand in several of the revolutions.

He got into the world war as a private in the Foreign Legion. In the first Champagne battle in September 1915, Sweeny was commissioned a lieutenant on the field for conspicuous gallantry. He was severely wounded and gassed in this battle, and on a hospital cot in Paris, he was awarded the cross of the Legion of honor.

Two other important decorations were bestowed on him in rapid succession and he had a great reputation for bravery. Soon after being made a captain in the French forces he was sent to the United States upon advice of Ambassador Sherry, as an instructor in 1917.

## FRENCH DENY PAPER REPORTS

Says American Publisher Misrepresented State of Affairs in France.

By the Associated Press  
NEW YORK, Aug. 30.—France's "victory of peace" in her reconstruction "nails the lie that her people are not working," Herbert S. Houston, New York publisher, declares after a period of research at Paris whence he recently returned.

Offering statistics showing remarkable rehabilitation in former devastated regions, where German divisions wrought havoc in industrial, farming and mining sections, Mr. Houston characterizes the recovery of the French people as another "miracle of the Marne." In an article in the current issue of World's Work he says:

"With government support, including loans totalling 9,609,082,916 francs for agricultural and industrial reconstruction in 'devastated departments,' the French people have reopened 3,345 out of 6,445 schools existent before the war, built or rebuilt 28,200 temporary wooden and 16,800 permanent stone dwellings, and erected 3,339,000 hectares (a hectare is about 2 1/2 acres) out of 3,950,000 of barbed wire and trenches, employed 1,500 men pumping out and cleaning up flooded mines, rebuilt 475 out of 600 railroad bridges, with 80 more in course of construction; reopened virtually all of 1,100 kilometers of canals destroyed and rebuilt 136 wharves and built 28 new ones.

Today, less than two years from the armistice, the population of the invaded regions has grown from less than 2,000,000 to more than 4,000,000, approximately three-quarters of the pre-war population." Mr. Houston says, adding that the return was "not that of the prodigal son."

American committees have done much to help France rebuild, Mr. Houston declares, adding that introduction of farming machinery to the French peasant was probably America's best contribution.

As a result to a considerable degree of this mechanical assistance, greatly increasing the producing power of the fewer workers, the devastated regions in 1920 will raise enough crops for food," he predicts.

On the industrial reconstruction of France, Mr. Houston asserts that 300,000 workers now are employed.

French mills and 2,627 of the 3,500 factories destroyed in the war have resumed production. During the war the destruction in mill centers was very great, 80 per cent of the textile mills in Lille having been destroyed; all 40 mills in Armentières wiped out; in Fourmies only 50,000 bobbins remained out of 700,000 and Roubaix and Turcoing "had the same degree of destruction."

So it was throughout the whole industrial region of the north, the great workshop of France," Mr. Houston says. "The tale of rebuilding, now to be added to Frenchmen's annals, will always be a chapter of achievement, almost as important as the defense against the German invasion."

He was not long in getting into the Pole-Red fight and in recognition of his splendid services Poland commissioned him a Brigadier General. Recent dispatches say that he had marked out by his gallantry and leadership.

Jack Kitchell Has Badger That Will Meet Any Dog

Some Texas friends just recently captured monster badger and shipped it to Jack Kitchell of this city and Jack is already offering challenges far and wide. Not only that but the real sports are offering to wager any amount that the Texans badger can whip any dog in the German invasion."

He got into the world war as a private in the Foreign Legion. In the first Champagne battle in September 1915, Sweeny was commissioned a lieutenant on the field for conspicuous gallantry. He was severely wounded and gassed in this battle, and on a hospital cot in Paris, he was awarded the cross of the Legion of honor.

Mr. Kitchell states that only about ten days ago the badger killed an eighty-pound bulldog in a ten minute battle in Dallas and came out practically without a scratch. It follows, quite naturally, that the owner thinks the badger can repeat the same performance here.

## PETROLEUM PROPERTY BRINGS BIG OFFER

Campaign Funds of Democrats and Republicans Being Audited.

By the Associated Press  
BUENOS AIRES, Aug. 29.—Argentina has refused a British offer of 10,000,000 pounds for the control of the government's petroleum producing properties, maintaining its traditional attitude of guarding the deposits for the benefit of the national. The offer was made by Frederick White, representing the Cowdray interests.

While the government's petroleum fields at Comodoro Rivadavia are producing approximately 200,000 tons of petroleum annually, the fuel shortage in the nation has given rise to agitation for more extensive development. A dispatch from London quotes Mr. White as explaining that President Irigoyen expressed himself as anxious for increased production but that he was unwilling to see the exploitation taken out of the hands of the Argentine people.

Other offers for these fields have been refused in the past, including offers from North American promoters.

## GOVERNOR COX PLANS TRIPS

Is Traveling Homeward to Prepare for "Swing Around Circle."

By the Associated Press  
ENROUTE WITH GOVERNOR COX, PITTSBURGH, Aug. 30.—Governor Cox is traveling homeward today to prepare for his "swing around the circle." In the west next month. Enroute from New York, the democratic presidential nominee's schedule was to bring him to Columbus late this afternoon.

Governor Cox's next address will be delivered tomorrow at the state fair at Columbus. He will make another address on Thursday to a gathering of the National Agriculture organization and leave that night on his western trip, opening September 3 at Lansing, Mich. The last month of the campaign will be spent in the middle west, south and east.

A reply to Senator Harding's recent speech on the league of nations and further "revelations" regarding republican campaign contributions are planned by the governor in early addresses.

## MINERS MET OPERATORS IN KANSAS CITY TODAY

Ada Gets Its First Bale of Cotton on Saturday Afternoon

KANSAS CITY, Aug. 30.—Representatives of the United Mine Workers of America from Kansas, Missouri, Oklahoma and Arkansas, met today to present to representatives of the Southwestern Interstate Coal Operators association a request for modification of the biennial wage agreement now in force in the four states.

The miners demand is understood to be for an increase in wages of \$1.60 a day for day men and a reduction in the price of explosives. Present wages for day contract men are \$6.00 and \$6.50 per day.

## PRESIDENT APPROVES COMMISSION REPORT

WASHINGTON, Aug. 30.—President Wilson today approved the majority report of the anthracite coal commission, increasing the wages of contract miners 20 per cent over present rates. The president struck out of the report a provision fixing terms of retroactive payment under this award, which he said was outside the commission's jurisdiction.

Anthracite workers will receive about \$18,000,000 in back pay under the retroactive feature of award which makes it effective, April 1, 1920, and the total increase awarded to the 175,000 miners will average, the commission says, at least \$85,000,000 annually.

## COMMITTEE OPENS CAMPAIGN INQUIRY

Thirty Masked Men Take Claud Chandler From Jail in Oklahoma City—Hanging Takes Place in Council Grove.

CHARGED WITH SHOOTING U.S. MARSHALS

Chandler Is An Alleged Moonshiner and Was Said To Have Killed Both Officers in Last Friday's Killing Near Arcadia.

By the Associated Press  
OKLAHOMA CITY, Aug. 30.—The body of Claud Chandler, negro, who last night was taken from the jail here by a group of thirty masked men, was early today found hanging from a tree near Council Grove, about eight miles west of Oklahoma City, according to a telephone message from a farmer near the scene, to the Sheriff's office here.

Chandler was arrested and lodged in jail here Saturday in connection with the shooting of two officers, who attempted to raid an alleged moonshine still near Arcadia, 23 miles northeast of here. County Attorney Cargill and Sheriff Johnson left their offices here for the place where the body of the negro was reported to have been found suspended from a tree, immediately after receipt of the information. Other than the news that the negro had been located, no details were given.

Brought on by charges of Governor Cox, the democratic nominee, that the republican party is raising a \$15,000,000 campaign fund and the statement by Franklin D. Roosevelt that the amount is nearer \$30,000,000, the committee is prepared for an exhaustive examination of campaign funds. For this purpose subpoenas were issued for Will H. Hays, chairman of the republicans' national committee; George White, chairman of the democratic committee; Fred Upham and Milbur Marsh, treasurers of the two committees; treasurers of the senate and congressional committees of each party, and Governor Cox himself has been invited to attend or send a representative. The Governor so far has not answered and has indicated that he will send information to support his charges.

Owing to the scope of inquiry into the presidential campaign, Senator Kenyon announced that the investigation not only would delve into collection of money to finance the campaign, but would seek to reveal whether promises of federal positions were being exchanged for campaign assistance. He also promises an inquiry into charges that federal office holders are campaigning for Governor Cox with expenditure paid out of federal funds.

By the Associated Press  
CHICAGO, Aug. 30.—At the outset of the hearing, Senator Kenyon introduced the newspaper account of Governor Cox's speech at Pittsburgh, the committee's telegram to him and the governor's reply.

Senator Reed urged that the committee's duty had been early defined as "to find every dollar collected and expended by both national organizations. He said this course would have been followed whether Governor Cox had made charges or not.

Without a record vote the committee received the newspaper accounts of Cox's speeches at Pittsburgh and Louisville.

J. T. Goggins rolled into town late Saturday afternoon with the season's first bale of "Southern Pride."

Mr. Goggins lives 4 miles north of town and is one of Pontotoc county's leading farmers. He states that he can pick quite bit more from his patch.

This morning O. N. Walker, secretary of the Chamber of Commerce, circulated a premium list to Ada business houses and cash prizes amounting to \$200 was given to the owner of the first bale.

## Fair Buildings and Grounds Thoroughly Clean and Sanitary

About fifty farmers and club members are at the fair grounds today cutting weeds and preparing the place for the fair. The exhibit halls are being put in shape and all livestock pens are being cleaned and repaired.

Joe Rushing has put a quietus on the possible spread of disease at the fair grounds. His big driven spray pump is being used in disinfecting every part of the place. In addition to the above, hydrated lime is being scattered in all stalls and pens. With these sanitary precautions livestock exhibitors should have no grounds whatever for fear of infecting their animals with disease.

The county commissioners, let it be said, are lending every possible assistance in getting the fair grounds in shape for the biggest and best fair in the whole history of the county of Pontotoc.

## WATERMELONS ARE PLENTIFUL HERE

YORK, S. C., Aug. 30.—Farmers in this vicinity are giving away watermelons and feeding them to hogs. Three weeks ago watermelons were reported selling at prices ranging from 50 cents to \$1.25 each. But the crop has swamped the market.

They say the only true criticism is that of a wholly disinterested critic, who has nothing at stake, and does not fear to tell the truth. If that is the case, a letter which drifted into the New York office of the Realart Pictures Corporation several weeks ago from a writer in Hollywood, Calif., contains about the sincerest praise for the work of little Miss Mary Miles Minter which could be imagined. For the writer in question had no axe to grind either with Miss Minter or the Realart company. He merely is an interested observer of picture people and their work in general, an interested bystander at picture-making, and naturally, from his acquaintance with the work of many stars, somewhat of a critic.

It happened that he saw the first run of the finished film, "A Cumberland Romance," an adaptation from the novel, "A Mountain Europa," by John Fox Jr. And he thought enough of it to write the following letter to Realart, the very same day:

"A Cumberland Romance" is in my opinion the greatest picture Mary Miles Minter has ever done, and I think I have seen her in most of her photoplays. No one can accuse her of being a 'doll' in this picture. She is a living, breathing girl, who wonderfully expresses the change wrought in the quick-tempered, elemental mountain maid under the spur of her love for a cultured man from the city. The criticism that she is never allowed to 'have a curl out of place' is scoffed for all time. She ACTS. She takes the character and sustains it consistently from start to finish. In my humble opinion there is not a single flaw in a very beautiful and gripping piece of work."

"To Director Charles Maigne belongs a great share of the credit for this fine production. He gives the star every possible opportunity but he does not destroy dramatic values by lessening the scenes belonging to the other characters, all of whom have strong roles which are convincingly played.

"My opinion is that 'A Cumberland Romance' is a knock-out."

This photoplay is now being shown at the American Theater.

## THE DEFEAT OF BAILEY

Complete returns from the Texas primary are not available as this is written, but sufficient counties have reported to show that Joseph W. Bailey has been beaten decisively. The majority for Neff may not be so large as first returns indicate, but the result is fully known and the man from Gainesville will not be the next governor of Texas.

The news of Bailey's political misfortune will be unpleasant news to his many followers throughout Texas, and in Oklahoma and New Mexico. He has always commanded a large following in these states and no man ever had a more devoted following. The people of Texas as a whole take their politics very seriously and none of them more seriously than the many thousands who for thirty years have followed Bailey. From the day he first won a congressional nomination back in 1890 they have believed sincerely that America has never produced a greater man than "Joe" Bailey. To them the story of his discomfiture will be a bitter story.

The defeat of Bailey will also be heavy tidings to those who believe in the old doctrines of his party. By those who esteem the rights of the states and gravely view the steady advance of federalism, Bailey is considered and properly so as the ablest advocate of their doctrines in America. They have hoped that he might win the governorship and in some way assist in restoring ancient landmarks, and sincere will be their regret that their acknowledged champion has been defeated.

But much as his followers and his sympathisers may deplore his defeat the downfall of Bailey is hardly surprising. He has suffered the fate of almost every candidate in every Democratic state whose war record did not ring true. The people of Texas might forget the days of Standard Oil and the Austin investigation. They might forget the long struggle of Bailey against every leader of his party if not against the party itself. But they could not forget the indictment Bailey drew against himself when he refused on at least one occasion to assist in war work and on all occasions failed to turn a hand or lift his voice in behalf of the nation's war activities. There is little doubt that this was the principal cause and a sufficient one for the majority cast against the former senator in Saturday's primary. The voters of Texas were determined that the Lone Star State should not be the only Democratic state in the Union to condone the action of one who remained silent while the nation was in mortal agony.

To one far removed from the lurid heat of the Texas contest it has seemed as if Bailey was going out of his way to develop opposition. He covered too much territory. He aroused opposition when plain common sense would have dictated silence. He made issues out of questions that had been dead for ages. He attacked reforms that had been triumphantly settled and settled for keeps. He attacked equal suffrage when there was no hope of repealing it and when he had absolutely nothing to gain but a cloud of enemies by opposing it. He attacked prohibition which was already an accomplished fact. By such tactics he drew the fire of a mighty host who might have divided their support with him had he continued silent.

In the second primary he abstained from attacking every thing indiscriminately and secured considerable support by his change of methods. But in the second primary as in the first his war record stood out against him and it was on this rock that his craft finally met disaster. It would have taken a shrewd tactician than Bailey to have won under such odds.

In some respects the failure of Texas to name Bailey for governor is unfortunate for Texas. He is probably the ablest man that ever sought to fill the governor's chair at Austin. It has been many years since any man save a mediocre has been governor of the commonwealth, and in comparison with his predecessors, Bailey would have loomed mountain high. But the dice of God are always loaded and the fates have decreed that Joseph Weldon Bailey shall remain a private citizen.

"Get the money" may be a very comfortable slogan to the republican leaders but they are away off if they think they invented it. That slogan is old as the pyramids and has been heard time and again in the history of the ten thousand years. The Corsairs of the Mediterranean stamped that slogan on their banner of skull and cross bones. Captain Kidd made it famous in all the seven seas. Sam Bass introduced it into the southwest and Jesse James died proclaiming it. The disciples of Gamaliel are keen enough but not by any means original. They will never get anywhere claiming the authorship of the slogan that graced the Jolly Roger. It has been known through the ages by every man that scuttled ship or cut a throat.

It may be a sweet revenge on an unpopular government to go on a hunger strike and starve to death but at this distance we can't see it that way.

You need not lose faith in woman suffrage just because the first woman nominated for the Oklahoma state senate is a Looney.

## State Press Comment

Shawnee News: Does anyone doubt that Jimmie Cox had the goods?

Bartlesville Examiner: Anyway, most of the local shoeshiners don't seem to be greatly disturbed over the Polish situation.

Stonewall News: Tire prices not likely to decline, says a headline. Who in thunder has been accusing them of such a thing.

Shawnee News: Some has asked: "Has the public any right?" Just put yourself in the place of the public and you will soon find out.

Hugo News: We are certainly having "wars and rumors of wars." We ought to be getting a good crop of predictions as to the proximity of the judgment day.

Tulsa Tribune: Hughes foresees Harding victory, says a republican organ's headline. Everybody, of course, expected Mr. Hughes to come away from Marion predicting the senator would be snowed under by 8,000,000 majority.

Shawnee News: Now comes the announcement from Oklahoma's metropolis to the effect that the Big been broken up and will never be. Four gambling combination has "will never be carried on along such a scale as it has heretofore."

Shawnee News: Once more the union depot project looms in Oklahoma City and as soon as looming has accomplished the purpose for which it has been loomed it will sink into a stage far lower than Grover Cleveland's "inocuous desuetude."

Oklumee Times: "The women openly boasted that their steamroller tactics had won the victory for them in Tennessee," says a dispatch. And we men have been wondering how best to go about the task of educating women in politics. Poor fish!

Bartlesville Examiner: Speaking of political deals the republicans charge that Thomas Owen, manager for Senator Gore, and former chief justice, is to be given the organization support for governor to succeed Governor Robterson in return for his active support of Ferris in the coming campaign.

## DEPALMAN LEADING IN ELGIN RACES

By the Associated Press  
ELGIN, Ill., Aug. 28.—At the end of the twelfth lap, approximately 100 miles, the Depalman was leading with an average of 78 miles. His eleventh lap was made in six minutes and 17 seconds, breaking the course record.

Milton was second, Murphy third, Mulford fourth and O'Donnell fifth. There was only 55 seconds between the first and fifth man.

**Paving Taxes Due.**  
Paving taxes for districts two, three, four and five are now due and payable at this office up to Sept. 15th, when all delinquents will be certified to the county treasurer. This is the last installment for district two, the third for district three, the second for district four and the first for district No. 5.

## SCHOOLS TO OPEN THE NEXT MONTH

Students Busy Preparing for Opening of Schools.

Every school child and college student should have a good Fountain Pen. The "M. T. Parker Special" is the ideal pen for the student as well as for the grown folks. It is a medium size safety, self-filter, the latest improved style—writes smoothly always, never leaks, and is guaranteed to give three years' satisfactory service.

In order to introduce this wonderful new pen into every locality we make this wonderful offer: Simply send us your name and address—no money—and we will send the pen by parcel post, prepaid. When it comes, merely deposit 93 cents with the postman to help pay for advertising, boxing, etc. If you are not satisfied, mail it back to us within five days and we will return your deposit, but if you decide to keep it, it's yours—there's nothing more to pay. This offer applies to every one, both students and grown folks, but there will only be a limited number given away on this plan.

Send your name today (a postal will do) so as to be sure and get one. Address the M. T. Parker Co., Dept. B, 231 Haywood St., Asheville, N. C.

## Foreign Information

Dutch Actor to Play Shylock on Broadway.

Dutch New Yorkers, of whom there are some 9,000, are anticipating with pleasure the appearance on Broadway of Louis Boumeester, the famous Dutch actor. He will play Shylock in "The Merchant of Venice," a role which he played with marked success in England, where the production was witnessed by King George. A unique feature of Mr. Boumeester's performance lies in the fact that he plays his part in Dutch, while the rest of the cast use English.

Poles Form Republican Club. One hundred men form the nucleus of a new republican club in Newark, the members of which are to be recruited from the ranks of American citizens of Polish descent. The organizers of the club, which is to be known as the Polish-American republican club of Newark, have laid elaborate plans for enrolling every citizen of polish descent in Newark, who is not already a member of a political club.

Inasmuch as it is believed by the club members that only 10 percent of the Poles in Newark vote at present, the primary purposes will be to arouse the interest of citizens in voting, to acquaint them with the procedure and to encourage Polish residents to become naturalized.

The officers of the club are Mr. Jurkowsky, president; J. W. Waszkiewicz, vice president; C. Roback, secretary and C. Wesolowski, treasurer.

**Italians Have Floating Fair In Frisco.**

A floating commercial fair will shortly be held on a steamer in San Francisco bay under the auspices of the Italian chamber of commerce of San Francisco. The ship will be sent from Italy, carrying foods, textiles, machinery, automobiles, glassware and art goods, to demonstrate to Americans the numerous Italian products which might be successfully imported to this country. This system of floating exhibits was originally intended by the Italian producers to stimulate trade in Western Mediterranean ports, but was extended to the United States at the request of San Francisco Italians, who number 16,000.

**Espéranto Aids Czech Legionaries to Make Friends.**

While the Czechoslovak Legionaries, who served for six years in the Siberian army, protecting the line of railway and munition supplies belonging to the Allies, were in camp at Norfolk, Va., awaiting repairs to the S. S. Mt. Vernon, which had brought them thus far from Vladivostok, they made connections with the National Society of Czechoslovak Esperantists.

Immediately upon arrival on American soil the Legionaries made inquiries for men interested in the study of the "universal language," with the result that thousands of friendships were made through correspondence and substantial assistance was rendered to these heroes of a six-year war by their Esperanto colleagues in America. The Legionaries fairly devoured the latest literature on the subject.

It appears that students of Esperanto in Bohemia and Slovakia, before the beginning of the world war, were numbered by the thousands; in fact, the Esperanto Society had relatively the largest membership in the region which now composes Poles Grateful for American Aid.

The commissioner of the Polish Red Cross is about to publish a memorial book in the Polish and English languages to commemorate humanitarian activities of American institutions in Poland.

The book will contain a hearty appreciation of the many benefits extended to Poland by such organizations as the American Relief Administration, the Y. M. C. A. and other American institutions, which have not turned a deaf ear to the cries of distress from Poland.

## U.S. TREASURY OFFICIALS TO VISIT ENGLISH PEOPLE

**By the Associated Press**  
LONDON Aug. 30.—At first some surprise was expressed among British insurance and shipping companies transacting business in the United States, when it was learned that United States treasury officials were coming to this country to investigate their books in connection with taxation, says a Times article. However, any unfavorable feeling that may have been aroused at first has been overcome by the personality of the officials who were commissioned for the purpose and by an appreciation of the attitude of the United States treasury officials toward taxation assessments.

British business men have learned that the work of chartered accountants has hardly the same standing in the United States as it has in this country. Here the certificate of a first-class firm of chartered accountants attached to a balance-shears means that the figures of profits are accepted as stated, without question. It seems that there is not always the same unquestioned acceptance of figures so certified in the United States and that the United States treasury maintains quite a large field staff of inspectors whose business it is to examine the books of companies.

Appreciation of this fact, coupled with an assurance that officials of the treasury never disclose to other government departments the results of the insight they may gain into the conduct of companies' affairs has done much to reconcile British business men to a procedure which struck them at first as being quite strange.

### Ex-Soldiers Are Given Chance to File on U.S. Lands

Uncle Sam wants to make farmers out of a large number of the men who served in the recent war and is making tempting offers to these men in order to enable them to secure farms with little capital.

Responding to the interest shown in this subject by at least 85 percent of the ex-service men who recently answered questionnaires sent out by the local Red Cross organization, Mrs. Orville Sneed has compiled all of the homestead laws which relate to ex-service men.

The ex-service man is entitled to make his choice of 160 acres in any public or Indian lands to be opened for settlement 60 days before the regular opening of the lands. In addition to that he can deduct the term of his active service in the army, navy or marine corps from the regular five-year period necessary for proving up a claim, provided, however, he must reside at least one year on this

tract and repair, improve and cultivate it during that time.

**War Widows Cared For.**  
Widows of men who died while in the service, if unmarried, are entitled to make their selection and prove it up at once without any residence, cultivation or improvement on the land. If the widow has remarried the minor children of the deceased, or their legal representatives may, in the same way, make a selection and immediately prove up the claim.

Information concerning lands now open to settlement, or to be opened in the near future, can be secured by writing to the general land office in Washington or from the Oklahoma district office at Guthrie, Oklahoma.

### LONGSHOREMEN HAVE RETURNED TO WORK

**By the Associated Press**

NEW YORK, Aug. 30.—About half the longshoremen, who walked out, returned to work today, it was announced at the office of the international longshoremen's association. Hundreds of travelers planning to board various British liners today have to solve the question of how to get their baggage aboard, with the baggage handlers of the two big transfer companies are on strike and the longshoremen who handle the baggage on the wharves are on "vacation." Tourists found it almost impossible to get anyone to move their belongings and many of them carted their own trunks on their backs.

## HAD SUFFERED FOR 15 YEARS, SHE DECLARES

### Grandniece of Founder of the Christian Church Gains 35 Pounds by Tak- ing Tanlac.

"I have just finished my third bottle of Tanlac and have actually gained thirty-five pounds in weight," was the statement made recently by Mrs. W. T. Conway, 809 East Hidepark street, South St. Joseph, Mo. Mrs. Conway is one of the best known and highly respected women in South St. Joseph, and is a grandniece of Alexander Campbell, founder of the Christian Church.

"For at least fifteen years I had suffered dreadfully from stomach trouble and nervous indigestion. I gradually grew worse until I lost my appetite, and even when I did manage to eat a little something it caused me intense suffering. After every meal what I had eaten fermented and bloated me up with gas until I could hardly breathe. I suffered so from dizziness that I have actually fallen in the floor. I had pains all through my body nearly all the time, which

were especially bad in the small of my back. My nerves were so upset that it was simply impossible for me to get a good night's sleep. Finally, I became so run-down and weak that for months at a time I could not do my housework or even leave my room.

"I tried many different medicines, but nothing seemed to reach my case until I started taking Tanlac, and the first bottle of it did me more good than everything else I had taken put together. I am still taking it, although I have been practically relieved of all my troubles. Things I had not dared to eat in years now agree with me perfectly. I am almost entirely relieved of pain, am never troubled with dizziness, I can do all my housework without a particle of trouble. In fact, I don't remember when I have enjoyed as good health as I do now, and it is all due to what Tanlac has done for me."

Tanlac is sold in Ada by Gwin & Mays Drug Co., in Stonewall by L. P. Carpenter, in Francis by Francis Drug Co., in Roff by Dowdy's Pharmacy, in Allen by McManis & Rose and in Vanoss by Chas. L. Berger.

### MILLER BROS. RANCH START HOG CULTURE

**By the Associated Press**

PONCA CITY, Okla., Aug. 30.—Sun rooms with plate glass arranged to secure the best results from the winter sun; dining and sleeping quarters where electric lights reach the remotest corners, summer portable homes placed to derive the benefits of summer suns; a specially arranged kitchen where recipes are carefully followed by the chef in charge in order to guarantee the proper rationing, and a system of shower baths, with the water regulated at specified temperatures are some of the points that feature standard hog culture on the Miller Brothers 101 ranch south of here.

"Sunshine does the work if you happen to be in the hog business," said Dr. F. S. Hathaway, graduate of Pennsylvania University and of the Oklahoma A. & M. college, in charge of the hog department of the ranch. "Portable hog houses, used during the summer months, are important because they can be moved from place to place quickly, thus never permitting vermin or dampness to collect and endanger the health of the animal."

The crops on the ranch are so rotated that green feed for the hogs is provided the entire year, excepting when snows may fall. This feed is secured by planting a species of winter barley with rye, which remains green all winter, furnishing the hogs with sufficient pasture until alfalfa is ready for

them in the spring. "Pasture is the difference between profit and loss in the hog business today," Doctor Hathaway says.

### KNIGHTS OF COLUMBUS OPEN SCHOOL SEPT. 13

**By the Associated Press**

OKLAHOMA CITY, Aug. 30.—Seventy-five ex-service men have registered for the Knights of Columbus night school to be opened here September 13. The registration books have been open since August 18 and will be closed September 11. The Knights of Columbus will furnish free to ex-service men

books, supplies and tuition. About 700 students attended the school which was started last year, and the Knights expect 1,000 war veterans to be enrolled for instruction when the school is opened.

## Your Eyes and Their Care

### RESULTS OF EYESTRAIN

If strained eyes are not relieved within a short time by proper glasses permanent injury will result, and the sight can never afterwards be restored to what it should have been. While the eyes will stand a great amount of misuse, if misused too long there is no way to make them "as good as new."

One of the most insidious and least often recognized results of eyestrain is the waste of nervous energy. This drain on the nerves leads to undue fatigue and may weaken the entire system, affect the general health and be the indirect cause of troubles in various other organs.

## GOVERNOR COX MAKES ADDRESS

(Continued from page 1.)

declaration of public questions, though he slips at times into that ambiguity which unfortunately has marked to a greater or less degree the platforms of both parties and the utterances of both candidates.

"It must be exasperating to the whole American public that political parties bidding for the suffrage of the whole citizenship can not state in definite terms what are their proposals and what are their pledges. The same exasperation must be felt regarding many of the utterances of candidates. However, the viewpoint of Governor Cox is, we find, more clearly expressed and less open to the criticism of lack of clarity.

"Moreover, and as an argument that admits of no qualifying or denial, there is Governor Cox's record as governor of Ohio during which he acted upon 59 measures of interest to labor without acting on a single one adversely to labor.

"This is a record of fidelity to humanity, of understanding of the needs of the great masses of the people that has few equals in American political life.

"The American labor movement asks from no man or woman a pledge of political conduct. It seeks to dictate to none. Its field is limited, and properly so, to furnishing to the rank and file the information upon which it may base conclusions.

"There is no intention to depart here from the rule which binds the officers individually as well as collectively in serving the great labor movement. But it would be a sad and unforgivable remission of duty in this crucial hour were the facts not presented with the utmost freedom and completeness.

"With the workers of America rest the right of deciding for which candidate they shall vote. As they vote—whether it be well and wisely or with a disregard for the facts of life as they are—they will determine to a large degree the welfare and progress of the working people of our republic in the years just ahead."

The senate measures on which Senator Harding was given a "favorable" rating were:

Passage of immigration restriction bill and its repassage over the president's veto; war risk insurance; civil rights' bill; woman suffrage; motion to increase appropriation for the bureau of conciliation, department of labor, and his vote on an amendment to the retirement bill prohibiting affiliation of federal employees with organized labor.

Among his "unfavorable" votes the committee report included these:

Motion to strike labor charter from league of nations; motion to extend federal control of railroads for two years; final passage of railroad law, making strikes unlawful; Borland amendment increasing hours of government employees, and his senate pair on the railroad conference report.

Among the 59 measures the committee listed as those Governor Cox had acted upon "favorably" while governor, were bills providing for an eight-hour day on public works; regulating the hours of employment of women; workmen's compensation act, prohibiting the employers of labor from interfering with political activities of their employees; relating to safety appliances upon railway locomotives and cars; providing for the prevention of occupational diseases, and providing for the creation of an industrial commission to have supervision over all state departments relating to labor.

## CHINESE WILL TRAIN OWN FLYING CORPS

By the Associated Press  
SHANGHAI, Aug. 30.—In line with the Chinese government's purpose to train its own aviators to take charge of the country's future aeronautical development five young Chinese, who have been studying aviation at the Nan Yuan Aviation school, were sent to Manila this summer for post-graduate training in flying at a school of aviation there.

The Pontotoc County Free Fair directors and superintendents of departments at their annual meeting Saturday made final arrangements for putting over the big county fair. Many new features of the fair were adopted and will be discussed in succeeding issues of this paper.

A keen interest throughout the county is manifest in the fair. One evidence in Saturday's meeting was the fact that over 75 per cent of the rural school teachers of the county were in consultation with the officials and promoters of the fair.

The farmers are very much interested in the fair. They have been encouraged by the visits and instruction of the fair promoters, and are beginning to realize that the fair means much to them.

County Court  
Charles Hill, charged with petty larceny, plead guilty in Justice Brown's court this morning and drew a fine of \$25. He took a bicycle from another small boy here some time ago.

William Reece was placed in the county jail and a charge of assault and battery was chalked up against him. It is alleged that Reece beat his wife with a pistol.

Deputy Chandler arrested Ned Vaughn Saturday and filed charges of "making liquors" against him. Vaughn runs a place down in Darktown and has given the officers trouble before. He made bond.

This is a record of fidelity to humanity, of understanding of the needs of the great masses of the people that has few equals in American political life.

## "Madam--" Said the Beggar,

"I have lost one arm and one leg—"

"Well"—was the reply as the door slammed in his face, "you don't need to look for them here—I'm sure I haven't got them."

The other day a friend of ours told us that a great many sales people seem to take delight in saying "we haven't got it"—rather than make an effort to look around and see.

And his remarks suggested this advertisement for that very thing is NEVER going to happen here.

Our salesmen are workers—not shirkers. They are here to "look" —not to "loaf."

The men in this organization welcome your call even though they are not able to cultivate it.
